

simulator::Simulator

```
classDiagram
    class simulator_SimulatorHybrid["simulator::SimulatorHybrid"]
    class simulator_Simulator["simulator::Simulator"]
    simulator_SimulatorHybrid --|> simulator_Simulator
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'simulator::SimulatorHybrid'. A blue arrow points vertically upwards from this box to a white box labeled 'simulator::Simulator' at the top. This indicates that 'simulator::SimulatorHybrid' inherits from 'simulator::Simulator'.
