

src/io/MeasurementModelReader.h

```
graph BT; A[src/io/MeasurementModelReader.h] --> B[src/io/MeasurementModelReader.cpp]; A --> C[src/models/MeasurementModelData.cpp];
```

The diagram illustrates the dependencies of the header file `src/io/MeasurementModelReader.h`. It is represented by a gray rectangular box at the top. Two blue arrows point from below towards this box. The arrow on the left originates from the box `src/io/MeasurementModelReader.cpp`. The arrow on the right originates from the box `src/models/MeasurementModelData.cpp`. This indicates that both source files depend on the header file.

src/io/MeasurementModelReader.cpp

src/models/MeasurementModel
Data.cpp
